KEISER UNIVERSITY AS, OTA PROGRAM OUTCOMES

The Accreditation Council of Occupational Therapy Education (ACOTE) independently accredits all OTA programs. In order to sit for the national boards (NBCOT) a candidate must evidence graduation from an accredited program. *From 2016 to 2017, all campuses offering AS, OTA transitioned into individual accreditation through ACOTE.*

Number Admitted: The OTA program offers two- three admission cycles every calendar year in the months of January, May, and September. Once all general education pre-requisites are completed, the program requires an additional 16-months of the program major courses for completion. *The maximum number of students admitted per campus annually is seventy-two. These students then have the opportunity to become graduates in the following calendar year. The below table tracks graduates for the most-recent three reporting years.*

Number of Program Graduates and Graduation rate:
The OTA program has two- three graduation cycles (dependent on the number of start cycles) per calendar year, in April, August, and December. This number includes those admitted who may have failed a course yet return to complete and graduate within 150% of the required time. For the most recent year, the graduate data remains pending total results. Results currently displayed as a projection of the current year listed. The OTA program has a program evaluation benchmark of ≥70% annual graduation rate.
*Graduation Rate 2020: The year of COVID brought cancelations of fieldwork & clinical placements therefore extending graduates into the following year for all campuses.

NBCOT ® results disclaimer
The OTA program maintains internal data on all students and graduates. As the program recently transitioned into independent campus accreditation, *the results offered here may not reflect the statistics provided by NBCOT® in their website.* NBCOT® continues to report results encompassing several campuses according to previous program regional accreditation status. The data reflected here are internal individual campus data. A comparison to NBCOT annual national average pass rates is provided. For NBCOT results please follow the link provided on this webpage. The accreditation agency has established an ≥80% three-year cumulative pass rate.

Job Placement rate: Outcome data reflects an academic year inclusive of a 6-month post-graduation period allowed for employment. The program has a benchmark of ≥70% employment annually.
